Experience a new way to display the ball movement and predict a ball's intended destination using the new Interactive Visualisation feature. Make decisions intuitively by watching the real-world ball travel in slow motion, as you tactically reposition the AI and make decisions on pitch. Offers a new "Instruct" mode to teach players the ideal way to play and train at their very own, personal training ground. During the session, you have direct control over the player and work through training drills individually. Graphically enhanced gameplay and animation with new and enhanced player models, unique player animations, improved lighting and effects, and shadows and post-processing. An improved camera perspective allows for a wider view to get close to the pitch and offers more freedom for the camera angle. The major features: Interactive Visualisation: Interact with the ball by analysing the way it behaves and where it's going. Customise the way the ball behaves depending on its speed, spin, deflection or the way it's acted on. You can spend more time directing the ball or making quick decisions. Display the ball in real-time by watching it in slow motion. Direct the AI to find the best position to move the ball in the final third. Use it as a template to place the ball in the best position to work your play and train at your very own, personal training ground. Offers a new "Instruct" mode to teach players the ideal way to play and train at their very own, personal training ground. Crowd Chants: Enhance the fan experience with an enhanced crowd chanting feature. Every move and touch of the ball is accompanied by a sound effect and crowd chants that react to the game. AI: See how the AI makes decisions and behaves, and guides the player to choose the best course of action with the new coaching tool, Task Manager. Matchday: Optimise play and give players more room to make decisions. Enlarge the pitch to make for more space on the pitch. Add more options to the new Formation Editor. Bigger Pitch: The pitch has grown from 160 x 113m to 175 x 115m. The number of players on the field has also grown from 28 to 32. FIFA 20, introduced in May of 2019, was a monumental improvement over its predecessor, FIFA 17, for its football title in the life simulation genre. It

Fifa 22

FIFA is the most widely-played and authentic sports video game on the planet, unlocking an incredible world of possibilities for fans and players alike. FIFA has been played more than 990 million times! Whether you are running the show as head coach, leading your favorite club, or showcasing your skills in FIFA Ultimate Team™, play the world's most complete sports game as never before. New Design - New Blueprint The world of player movement and body contact has been dramatically improved through several advancements, such as radical defensive targeting, a new pressure system, and an improved wall pass and cheat kick system. Ball movement has been tweaked in the run game to provide players with more options. And finally, the ball feels more responsive and accurate, allowing you to exploit even the tiniest of spaces in defense. True To Life Gameplay The rich and authentic experience of FIFA has not changed, but now the game will feel even more authentic and true to life thanks to several gameplay advances. Players now have the ability to flick the ball with both hands simultaneously and the pitch has been completely overhauled in all areas of the game, so football will feel more like football than ever before. New dynamic and reactive players, the impact of other players on the pitch, ball/player collisions, and team atmospheres will all be a lot more realistic in Fifa 22 Product Key. Player-to-Player Communication For the first time ever, every player will be able to communicate with every player on the pitch in audio and visual ways. Players on the pitch can call for offside, throw the ball to a teammate, and even give a thumbs up. Players can also exchange huddles while on the pitch. The entire game environment will change when players communicate during the match. New Action Camera View Action camera views in multi-cam matches have never been this immersive. The whole game will feel more cinematic. During a match, you will be able to zoom in and out, zoom in to see specific parts of the game, use the volume to mute the crowd, and switch between different camera angles. New Real-World Player Status Soccer has never felt more lifelike thanks to a wide range of real-world player statuses for the first time ever. Each player has an in-game health and fatigue level that changes based on their in-game activity. The more they play, the more bc9d6d6daa
